DESERT SPICE

The Harmony story of Orange and the Colors that go well with Orange

PPG
PITTSBURGH® PAINTS

Original palettes resplendent in the COLORS OF THE EARTH.

The colors of sand and iron ore and terracotta; all expertly balanced with complementary hues of deep ocean blues, muted khakis, or sea-worn neutrals.

ORANGE

Reminiscent of exotic places and familiar pleasures, orange is joyful and stimulates creativity. As the color of fire and sun, orange bursts with liveliness.

This energizing hue adds spice to any room where action is a key word, like the kitchen, the playroom, or the hall. The ginger tints create a warm and engaging décor, that is an ideal atmosphere for long and animated conversations. The softer, muted tones elicit compassion, a virtue traditionally associated with pinks, but here, they are subtly infused with the energy of Desert Spice.
